Cybersecurity Analyst & Fullstack Developer

Fullstack developer and cybersecurity analyst currently specializing in information security (Master IFRI/UAC), combining web development expertise, network administration (TCP/IP, VLAN) and cybersecurity awareness. Rigorous and autonomous, I work on both securing information systems, developing and supporting business applications.

Cotonou, Benin

SKILLS

Cybersecurity

- ▶ Network & IS Security
- ▶ Cloud computing - AWS
- ▶ Vulnerability Analysis
- ▶ Access Control & IAM
- ▶ Application Security (OWASP)
- ▶ Security Audit & Documentation

Networks & Infrastructure

- ▶ TCP/IP, VLAN, DNS, DHCP
- ▶ Switch & Router Configuration
- ▶ VMware Virtualization
- ▶ Docker, Kubernetes

Fullstack Development

- ▶ React.js / JavaScript ES6+
- ▶ Laravel / PHP, Django / Python
- ▶ Node.js / REST APIs
- ▶ HTML5, CSS3, TailwindCSS

Databases

- ▶ PostgreSQL, MySQL

DevOps & Quality

- ▶ Git, GitHub, GitLab
- ▶ Unit & Integration Testing
- ▶ Technical Documentation

ERP & Business Apps

- ▶ Dolibarr (admin & dev)
- ▶ Banking Applications

LANGUAGES

French – Fluent

English – Intermediate (B2)

STRENGTHS

- ▶ Autonomy & Initiative
- ▶ Team Spirit
- ▶ Organized & Rigorous
- ▶ Curiosity & Tech Watch

PROFESSIONAL EXPERIENCE

IT Operations Analyst | BFT BENIN - Nov. 2024 - Dec. 2025

- ▶ Secure administration of Dolibarr ERP: access rights management, business configuration and module auditing;
- ▶ Development and deployment of features on internal web applications (PHP/Laravel) following OWASP security best practices;
- ▶ L1/L2 technical support: rapid diagnosis and resolution of application and network incidents;
- ▶ Writing and maintaining technical documentation (procedures, user guides, specs);
- ▶ Cross-team collaboration for secure migration and production deployment of new solutions.

Fullstack Web Developer | LIGHT INNOVATION - Jul. - Oct. 2024

- ▶ Development of secure responsive web applications (React / Laravel);
- ▶ Integration of new features in compliance with quality and security standards;
- ▶ Training and mentoring new developers on Git, testing and code review.

IT Production Assistant | MA CONSULTING - Oct. 2023 – Mar. 2024

- ▶ Design, development and testing of web and mobile applications (PHP, JavaScript);
- ▶ Collaboration between design and development teams to create user-friendly interfaces;
- ▶ End-user training on business tools and office software.

Programmer Analyst | TECHNODATA SOLUTION - 2020 - 2023

- ▶ IT solution engineering: project management, network security (TCP/IP, VLAN), internet access optimization;
- ▶ Configuration and administration of network infrastructure: switches, routers, VLAN segmentation;
- ▶ Server environment virtualization with VMware;
- ▶ Design, maintenance and testing of web and mobile applications.

Programmer Analyst | OTEC MULTI-SERVICE - Jun. 2022 - Present (occasional missions)

- ▶ Network connectivity diagnosis and restoration at DGAS / MASM (2022);
- ▶ IT equipment maintenance at the Ministry of National Defense (2023);
- ▶ Technology watch on network and security best practices.

EDUCATION

Master 1 - Information Security

IFRI / University of Abomey-Calavi

In progress – since 2025

INTERESTS

- ▶ IA & Cybersecurity
- ▶ CTF & Security Challenges
- ▶ Sports & Music

Professional Bachelor's - IT Management

IUT / University of Parakou

2020 - 2023

A handwritten signature in black ink, appearing to read 'ABM' followed by a stylized flourish.
